

View the capacity of a service - quick reference guide

This guide explains how to check whether a service has capacity for new clients.

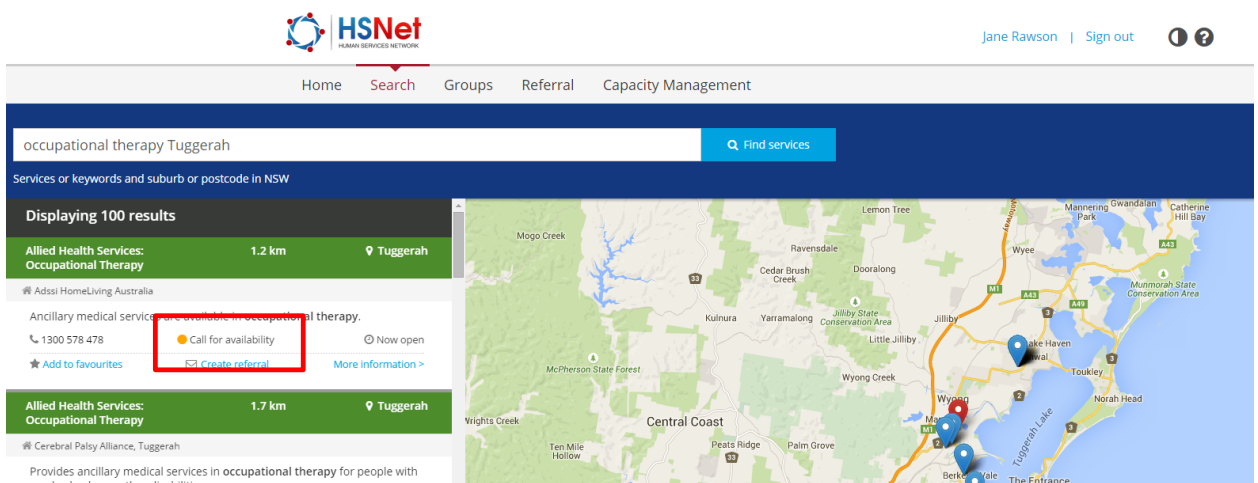

To view the capacity of a service, go to the HSNet website www.hsnet.nsw.gov.au and perform a search.

Follow these steps to check whether a service has capacity for new clients:

1. From the home page, search for a service.

2. You will get a list of results. Not all services provide information on capacity. Those that do will show a small dot – it will be green, amber or red. A green dot means the service has capacity for new clients. An amber dot means you should call to check their capacity. A red dot means they have no capacity for new clients.

3. You can find out more about the service’s capacity by clicking ‘More information’.
